

Coding & Solution

Date	29 June 2026
Team ID	XXXXXX
Project Name	OPTicrop: Smart Agriculture Production Optimization Engine
Maximum Marks	5 Marks

Coding & Solution

This section evaluates the quality and completeness of your implemented code and the overall solution. Your submission should demonstrate working functionality, clean code practices, and alignment with your defined requirements.

Instructions:

1. Ensure your code is well-structured, commented, and follows best practices for your chosen technology stack.
2. The solution should address the core problem statement and implement the key functional requirements.
3. Include all source files, configuration files, and setup instructions needed to run the application.
4. Attach or link to your code repository (e.g., GitHub) in the table below.

Solution Summary

Field	Details
Repository Link / URL	[Paste your GitHub / GitLab or hosted link here]
Programming Language(s)	Python, HTML, CSS, JavaScript
Framework(s) Used	Flask, Scikit-learn, Pandas, NumPy, Bootstrap
Key Features Implemented	Crop recommendation using ML, Yield prediction, Fertilizer recommendation, Weather analysis, Farmer dashboard, Data visualization
Pending / Incomplete Features	Live IoT sensor integration, Satellite image analysis, Mobile application, Multi-language support
Setup / Run Instructions	1. Clone repository. 2. Install Python dependencies (pip install -r requirements.txt). 3. Run python app.py. 4. Open localhost in browser.

Code Quality Checklist

S.No	Criteria	Status (Yes / No)
1	Code is modular and organized into functions / classes	Yes
2	Meaningful variable and function names are used	Yes
3	Code includes comments / documentation where necessary	Yes
4	Error handling is implemented for critical operations	Yes
5	The application runs without critical errors	Yes
6	Code is committed to a version control repository	Yes

Additional Notes / Comments:

The project uses Machine Learning models to optimize agricultural production by analyzing environmental and soil conditions, providing intelligent recommendations to farmers.
